[WARNING: EXTERNAL SENDER]

---

Hello Allison,

Excuse the late response. We do require that all UBOs finish the KYC process and unfortunately there are no alternative solutions to the live verification requirement.

Sorry for the inconvenience.

Thanks for reaching out. This may be a bit difficult to accomplish because Mr. Kwon is detained in Montenegro. We do not have the ability to do the live face verification, which is required by the Synaps verification process. Please advise on an alternate approach. Thank you!

Best,

Allison

**[WARNING: EXTERNAL SENDER]**

Dear Allison,

Please be advised that Kwon Do Hyeong must also submit to Synaps verification process in addition to Lee Daeun which has already been submitted appropriately/

Thank you for your understanding.

Hello,

For the Token Delivery Agreement:

- Name: Lee Daeun for Kwon Do Hyeong
- Title: Attorney for Principal
- Physical address: 8 Ardmore Park #19-01 Singapore 25963
- Email address of the signatory: [giselle703@gmail.com](mailto:giselle703@gmail.com)

Please see the power of attorney attached for Do's wife to act on his behalf, such as being the signatory for this Token Delivery Agreement.

We note the Synaps step outlined below.

Thank you,

Allison

**Subject:** Important - Claim process for Replacement PYTH Tokens

**[WARNING: EXTERNAL SENDER]**

Hello - hope this email finds you well.

We are emailing you with important information pertaining to the tokens adopted as the native token for the Pyth Network (the "**Replacement PYTH Tokens**").

Holders of the original PYTH Tokens ("**Existing Token Holders**") will receive an equivalent entitlement to Replacement PYTH Tokens ("**Token Entitlement**"). The original PYTH Tokens have become unavailable due to unforeseen

circumstances. The Replacement PYTH Tokens are not materially different from the original PYTH Tokens.

Existing Token Holders have until 11:59 PM Eastern Standard (UTC -5) time on Thursday, December 7th, 2023 (the “**Deadline**”) to exercise their Token Entitlement and claim the Replacement PYTH Tokens.

There are two steps Existing Token Holders must take to receive their Token Entitlements:

### 1. Synaps Process for KYC/KYB and Wallet Set up

1. Complete the Synaps identification and authentication process here: <https://pyth.synaps.me/signup>. To avoid delays or issues, be sure to use the exact legal entity/person that is the Existing Token Holder.
2. Provide a Solana wallet address which will receive the Replacement PYTH Tokens. To facilitate future governance, this wallet should allow for Web3 interaction via Wallet Connect. Note this wallet address will be collected by Synaps as part of the application form.
3. Please reach out if you want more information on how to take delivery of the Replacement Pyth Tokens, including introductions to wallet service providers. Existing Token Holders acknowledge and agree that PYT Foundation, its affiliates and service providers and the Pyth Data Association, its affiliates and services providers make no representations or warranties, express or implied, with respect to any providers of custody solutions (“**Custody Providers**”) or their compatibility with Wallet Connect and disclaim any and all liability with respect to Custody Providers and Wallet Connect.

### 2. Token Delivery Agreement (TDA)

1. Please see the attached TDA for your review and let us know if you have any questions. Please reply back to this email with the name, title, physical address, and email address of the signatory so that a TDA DocuSign (along with additional details) can be sent to such signatory for execution.

Note that any Existing Token Holder who fails to complete the two steps above to claim their Token Entitlement by the Deadline will forfeit their Token Entitlement and the Replacement PYTH Tokens will be reallocated and delivered to the Pyth Data Association.

There are 10,000,000,000 Replacement PYTH Tokens and this total supply will not increase. 85% of the Replacement PYTH Tokens will initially be contractually locked. The locked Replacement PYTH Tokens will gradually unlock 6, 18, 30, and 42 months after the Replacement Pyth Token launch. The remaining 15% of Replacement PYTH Tokens will initially be unlocked.

Thank you,

--
